ACKNOWLEDGEMENT

On behalf of myself, I would like to thank all members of group 1 for your hard work and contribution towards the completion of this eProject. I would also like to show my gratitude for Mr. Pham Cong Danh for his valuable assistance during both the planning and development phase. Finally, I would like to thank Aptech for allowing us the opportunity to hone our programming skills and test ourselves on real-life problems. Thank you!.

SYNOPSIS

Harvel Electric is selling various electrical products. The company advertises by distributing the pamphlets, advertising on television and so on. Due to rapid development in internet field, the company decides to launch a website where people will get all the information about the various products available with them easily. The website is to be developed for the Windows Platform using HTML5, JavaScript and Geolocation. The site should work well in all leading browsers including Chrome, IE, Firefox etc.

PROBLEM DEFINITION

The Web site is to be created based on the following requirements.

- 1) The Home Page should be created making use of Sections with a suitable logo
- 2) The site should display a menu which will contain the options for brief introduction about the various products available, location of the shop and any other information if required.
- 3) The information should be categorized according to different type of products like if a User wants to see only 'FANS' then he click on a Link/button/menu etc and he will see different type of FANS. Similarly for 'GEYSERS', 'CFL' and other products
- 4) When a user selects any product type, a list of products for that product type will be displayed.
- 5) A brief summary of features of individual products should be displayed on the Web Page along with the product but detailed Features should be stored in Individual Word documents which can be downloaded or viewed by the User who wishes to see the same.
- 6) Price list allows users to download.
- 7) There should be a "Contact Us" page which will have the Address of the Company and the mail address which when clicked will invoke the local mail client from where they can send an email. Address of the Company should be displayed using GoogleMaps.

CUSTOMER'S REQUIREMENTS SPECIFICATIONS (CRS)

Client: Harvel Electric

Business/Project Objective:

The Objective of this program is to give a sample project to work on real life projects. These applications help you build a larger more robust application..

The objective is not to teach you JavaScript/Dreamweaver but to provide you with a real life scenario and help you create basic applications using the tools.

You can revise the chapters before you start with the project.

This project is meant for students who have completed the module of **HTML5**. These programs should be done in the Lab sessions with assistance of the faculty if required.

It is very essential that a student has a clear understanding of the subject. Students should go through the project and solve the assignments as per requirements given.

Kindly get back at eprojects@aptech.ac.in in case of any doubts regarding the application or its objectives.

Input to the system:

- Browsing products based on brands, type of equipments...

Output from the system:

- A menu that will categorize all the functions of the site.
- Display the list of available products category wisely.
- Site should be able to provide brief introduction/history about the company under About Us page.
- The location of the company is in Contact Us page.
- Besides the above requirements, the site should have look and feel as per the industry standards.

Expected delivery date: Dec-06-2023.

List of deliverables:

- Document Word.
- User Guide.
- Source code.

Hardware/ Software Requirements:

Hardware

- A minimum computer system that will help you access all the tools in the courses is a Pentium 166 or better.
- 64 Megabytes of RAM or better.

Software

- Notepad/HTML editor/CoffeeCup
- Angular/Angular JS/React/BootStrap
- Dreamweaver, VisualStudioCode.
- IE 5.0/ Netscape 6.0.

SCOPE OF THE WORK (IN BRIEF)

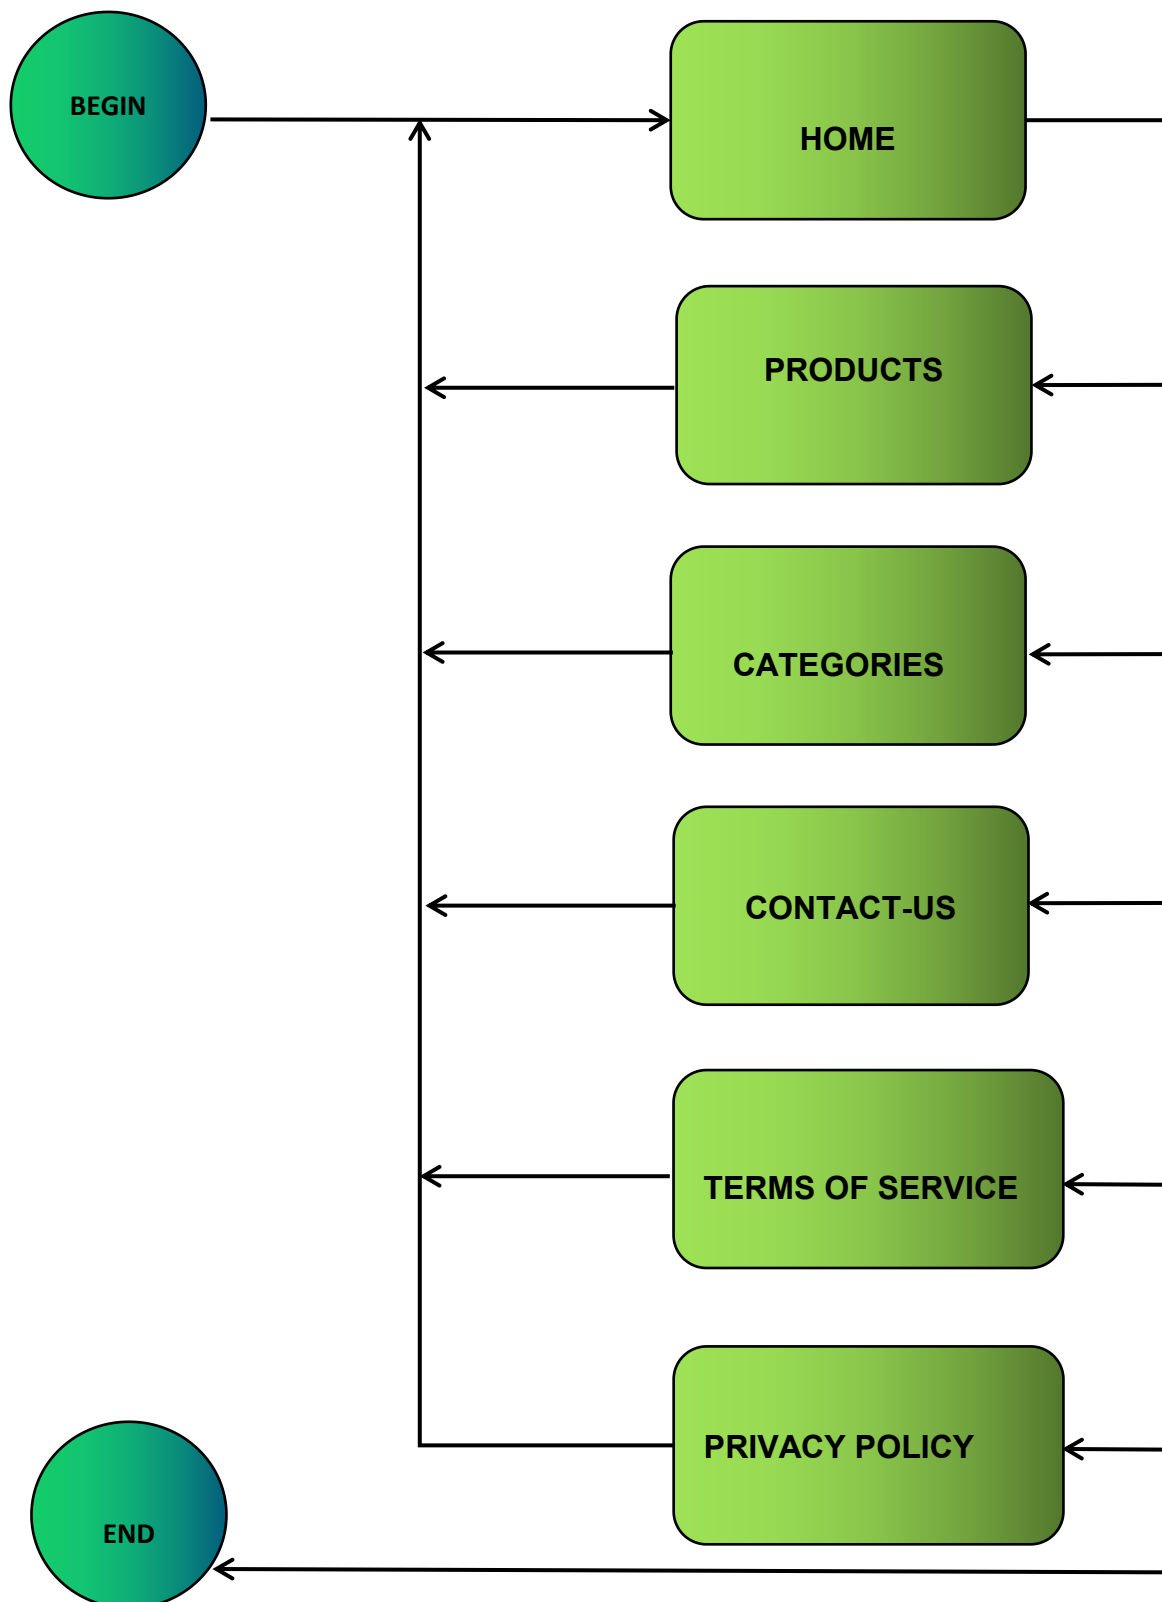

I have discussed with myself and agreed upon the website layout shown as below:

1. **Home:** Showing brief introduction about the company and type of products that it is selling
2. **Products:** Containing all products with their details and images .
3. **Categories:** Containing its products with their details and images categorized by type.
4. **Contact us:** Gmaill, Google map
5. **Terms Of Service:** Terms of service that customers need to know to register to participate and stay with us for a long time.
6. **Privacy Policy:** Explains how we use customers' personal data.
